

ELITE GROUP

CASE STUDY

Leasowe Primary School, Wirral, 2020.

"Ash and Liam have worked so hard to make sure we are happy. I can't talk highly of them enough." *Pauline Tubb - School Business manager.*

SPREAD THE WORD

Once again Elite Group have proven to help schools drastically cut their printing costs.

"We heard about Elite Group from other schools in the local area, the main reason we chose Elite was the value for money and the highly technical machines. They showed us about the Triple Click from our current supplier, which was costing us a fortune. Our costs have been reduced and we couldn't be happier. "

AT A GLANCE:

- Interactive Screens
- Cutting Costs
- Tiered Billing
- 5 star Customer service

OPERATIONALLY SIMPLE
ACADEMICALLY BRILLIANT

IF IT WORKS, IT'S

ELITE GROUP

CASE STUDY

Leasowe Primary School, Wirral, 2020.

"All the staff are amazing and go the extra mile."

Pauline Tubb School Business Manager

ELITE'S TIERED BILLING

Elite's Tiered Billing helps reduce colour cost as it only charges for the amount of colour used, as opposed to the standard click charge, which costs you the full amount even if you only have used a tiny dot of colour. "Liam keeps an eye on our account which we have never had with a supplier before, and he has called me to let me know which way of billing would work best for us."

INTERACTIVE SCREENS

The school were struggling with their current equipment and were left waiting over 3 weeks for different recommended suppliers to provide quotes and receiving very little information about the screens they would be providing, Elite Group stepped in and were able to help the school source 9 interactive screens and have them installed in 6 days.

"Our account manager Liam researched what screens would be most beneficial to us and he managed to provide a quote, have all our old equipment taken down and the new screens installed within 6 days. This was essential for us. We trust Elite Group 100% as they always have our best interests in mind." -School
